Student Admission and Support Assistance to the students is provided by different committees formed especially for admission process and to deal with various grievances of students. Helpline numbers of teachers are there and the students have direct talk with them. The teaching faculty i.e. the tutors of every class update and disseminate news related to academic and official documents in respective groups. Relevant information and notices are regularly displayed at various identified notice boards in the college. Examination The College conducts semester wise examination smoothly. The computerized sitting arrangement of the students is made and displayed well in time. Notices related to exams are also displayed on priority basis. The Registrar House Examination and examination committee in College ensures transparency and fair methods of conducting exams. Besides that marks of the internal exams and semester exams are also sent to the University online in time. Administration The college authorities have introduced the digitization of all database and

records. All the significant information is kept in record digitally so that it can be retrieved later on when required.

Part B

CRITERION I - CURRICULAR ASPECTS

1.1 - Curriculum Planning and Implementation

1.1.1 - Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

The institution ensures an effective curriculum delivery and the process is well planned and documented. There are various mediums through which curriculum are delivered. First of all division of syllabus called Unitization is done. The syllabus is divided into units which are to be finished in a given particular time. The syllabus is distributed among all the faculty members of the department in written. It is the responsibility of the concerned teacher to ensure the completion of syllabus in given period of time. A written record of unitization is kept so that it can be checked any time. The unitization helps a lot in the progress of syllabus because even the students get to know what they are going to be taught and in how much time they have to finish their syllabus. The Unitization also includes the time to time class test of the syllabus which is covered by the teachers. After unitization come the mode through which the syllabus is taught. Face to face interaction with the students, classroom discussions, question answer sessions were used to finish the syllabus. Some teachers took help of PPT also because some topics are to be witnessed visually. The example quoting is another tool which was used during classroom teaching. The students were given assignments based upon their classroom teaching and they were asked the questions from the assignments they submitted. Some teachers (especially the post graduate classes) conducted class room seminars also in which some students gave paper presentations and the whole class used to involve into this learning process. In order to check the ability of the students MST's were also taken. The units finished by the teachers were tested through classroom tests which helped a lot to get through the curriculum. Some teachers used projectors also to deliver their lectures e.g. History department took help of projectors for map work. Similarly other teachers with larger sections used this mode. Some other activities like question- answer sessions were also arranged about the covered topic. It is mandatory for the students to participate into these sessions. Such sessions help in quick revision of the topic and learning something new about the topic. All the activities carried out in classrooms are on record. There are attendance registers maintained for such group discussions, seminars and other activities.

2.3.2 - Students mentoring system available in the institution? Give details. (maximum 500 words)

The teacher guides the students as the builder of society. The teacher has an important role to play in adapting the students to the contemporary social conditions. The teacher makes students able and capable to fit in contemporary scenario. Keeping in mind the overall development of the students from different aspects, the teachers of our college organized many relevant co-curricular activities during the session 2017-2018. The main objective of these activities was to make students aware about their interests, about their rights, toward their goals and to make them capable to face and tackle any obstacle coming in their academic as well as daily domestic life. In order to fulfil this purpose the college organized many programs regarding Career guidance and placement cell, Buddy project, Drug De Addiction Awareness Campaign, anti-drug club etc. A district level Employment Fair was organized on 31st August 2017 by Career Guidance and Placement Cell of the college during the session. The then deputy commissioner Sangrur namely Shri Amarpartap Singh Virk inaugurated this employment fair. Around 700 boys and girls were selected for different jobs. On 3rd November 2017 under a mass counseling madam Harpreet Kaur Saraon (D.E.G.S.T officer), Mrs. Charanjit Kaur (Fish Breeding officer), Dr. Garima Mahajan and Prof. Amardeep Kaur BGIET guided the students about different government or career options. One more employment fair was held by district employment office in the premises of our college on 27 February 2018. The eminent personalities present were ADC, ODD to MLA Sangrur namely Sardar Major Singh Sekhon, and district employment officer namely madam Harpreet Saraon. The department recruited on 1200 vacancies. Following the guidelines of higher education department and Punjab government, 707 buddy groups were created out of the total strength of the college i.e. 3535. These groups were created by buddy project Drug De Addiction Awareness campaign with the purpose of preventing society especially youngsters from drugs. These groups were further divided with respect to 64 mentors and 6 mentors were assigned for the supervision of these groups. The project was started under the patronage of principal Dr. Mohammad Jameel and the nodal officer of this project is Professor Rupinder Sharma. Tobacco Control and Anti-Drugs Club Tobacco consumption and any intoxication in the premises of the college is strictly prohibited by Tobacco Control and Anti-Drugs club. Those who try to violate are fined heavily with chalan. This club organized a four-day inter-stream cricket tournament from 03/02/2018 to 05/02/2018. The purpose of organizing this tournament was to make students interested and careful towards their health. There are many board/hoardings of No Smoking Zone in the college.

2.5.2 - Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

System of Continuous Internal evaluation is very well planned in Govt. Ranbir College. Our college is a college affiliated to Punjabi University Patiala and adheres to the syllabus laid down by the University. Mid-Semester Test, Surprise tests, assignments, group discussion, Quiz competitions coupled with need based counselling are integral part of CIE system of the college which sharpen the minds of students and help to inculcate the habit of healthy competition. Our college conducts one Mid Semester Test (MST) in every semester. When evaluated answer books are distributed to the students in the class, they are encouraged to clear their doubts with the teacher. The students who miss their chance to appear in MSTs due to their participation in Sports, Cultural, NCC, NSS activities have been allowed to appear in special house exams. The Registrar's Office is responsible for conducting the House examination and complete record is maintained by this Office. The overall performance of the students is discussed by the Registrar with the Principal. Surprise tests orally or short question based keeps students on toes and apprise the students about their readiness towards the subjects. Surprise tests also let the faculty know about the communication skills and make students more confident. Teachers discuss with students their shortcomings and achievements. Slow learners are identified. These students get help by special classes being organized by teachers for their subjects as per the need of students. Assignments and projects are also given to broaden the subject understanding among the students.

2.5.3 - Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)

Preparing the academic calendar is the regular activity in college which decides the framework for the whole session to come and moving along the decided calendar makes the smooth running of curricular and other activities in the college. Besides the task of making calendar in the beginning of session it is also important to regularly check its implementation throughout the session which is regularly undertaken by the college principal, council, registrar and various other ad hoc committees made for the same from time to time. The academic calendar for session 2017-18 as circulated by Punjabi university, Patiala included the conduct of examinations. The dates for annual/Semester examinations were pre scheduled by the university and the same were circulated to the college in the beginning of the session. According to university schedule of examination, the departments of the institution divided the units of syllabus. Every department prepared its calendar and keeping in view the schedule for final examinations, scheduled their class activities, which included question-answer rounds, seminars, class tests, practical representations, paper reading etc. to keep the regular check at student performance of students. Such activities were kept in record so that assessment of the students can be given. At the end of the semester

MSTs were taken by the teachers themselves. The sheets were provided by the institution and result was put on record. Such tests were conducted because they are quite helpful in the academic growth of students.

4.4.2 - Procedures and policies for maintaining and utilizing physical, academic and support facilities - laboratory, library, sports complex, computers, classrooms etc. (maximum 500 words) (information to be available in institutional Website, provide link)

The facilities like laboratory, library, sports complex etc. as mentioned in the question are integral part of the effective curriculum delivery and without effective utilization of these facilities no one can even think to achieve the actual target of educating the students. These facilities are available in our college to the mark as required for the students. Laboratory facility which is the back bone of science teaching is available for all the science students as well as computer science students in the form and number as required by them. There are a total of 7 labs in our college including two chemistry labs, two physics labs, one botany and one zoology lab each, besides that a computer lab is also present. All the concerned students are required to go to these labs regularly as per their time table and perform the experiments as guided by their teachers. The students here in these laboratories are provided with latest and to the mark instruments to perform all experiments in their curriculum. This proved to be an effective method of curriculum delivery by experiential method. The policy of purchase of laboratory consumables and non-consumables is a regular task in college and for this science funds are created for physics, chemistry, botany and Zoology departments. A huge library consisting of approx. 72K books is an invaluable asset of the college and plays an important role in enhancing the knowledge base of the students. All the students in college are issued library cum identity cards from college and they are encouraged by teachers in classes to go and read good books, newspapers and magazines in the library. Various competitive magazines subscribed by college as well newspapers in English, Hindi and Punjabi cater to the need of students of all streams in college. Besides to ensure ample utilization of library regular updating in the form of new purchase of books is also a regular feature of the maintenance procedure. Recently a new software to manage this huge reservoir of books has been purchased by college namely E-granthalyaver 4.0 to upgrade the facility in favour of students. Sports facilities in college include well equipped sports room, two playgrounds, one for hockey and other for cricket, race track and gymnasium equipment's which prove useful in imparting training to physical education students. These assets are regularly upgraded and proper maintenance is done, so that students get benefit of

these facilities to its fullest. Computers and classrooms are basic needs of infrastructure which make the traditional method of learning more convenient and take it to another level when computers are also added. Our college has good infrastructure to cater to need of all students and computers are being added every year to further strengthen the effective curriculum delivery system.

5.3.2 - Activity of Student Council & representation of students on academic & administrative bodies/committees of the institution (maximum 500 words)						
<p>As the whole purpose of any educational institution is development of students in each and every aspect of life, so it is for our college. Our college bound by the guidelines of Punjab government and as per its instructions can't allow elections in college to make any formal student council but there is tradition in our college to choose some student in each class as class representative as per consensus in class by the class teacher in an informal way. This method makes the functioning of classes smooth and also helps the students to raise their class related or other grievances with the teacher through representative to solve the issue at one to one or class level. Besides that the students are made integral part of various committees by convenors so as to give them first hand experience of work assigned to that committee. For example even IQAC is having 3 student representatives from different classes and they play an integral role in smooth functioning of committee. There are various adhoc committees are being formed regularly in college for various tasks like athletic meet, any functions, seminars etc. and students are taken by most of the committees as their integral part. Another example worth mentioning here is formation of editorial board for college magazine "The Ranbir" being published every year, which involves selection of one student editor with each staff editor for each section. These student editors assigned the task of interacting with budding writers to guide them along with staff editors as well as they get experience in publishing work, proof reading etc. We can say that students are not only spectators in our college but they are participants in most of the activities being undertaken at the college which would shape their personality in a holistic way.</p>						

5.4 - Alumni Engagement	
5.4.1 - Whether the institution has registered Alumni Association?	
Yes	
<p>There is a registered organisation of passed out students of the college known as Ranbir Alumni Club Sangrur (RACS) under the registration no. DIC/DRA/1516 of 2003 in registration of society. Principal S. Sukhbir Singh is patron of this club. The president is Dr.Sukhcharanjit Singh Gossal, Prof.Rupinder Sharma is the secretary and Prof.Gulshandeep is nominated as cashier. The lifetime membership fee of this club is Rs.1000/- and three years membership is Rs. 500/-. Main gate of the college has been constructed by RACS with a cost of approx. Rs. 390000/-. RACS give rewards to the deserving students in the field of academics, cultural sports every year. RACS also provides free books to the needy students. RACS honours the winner athletes during the Athletic meet every year. RACS members are invited to the college for meetings and proceedings of the club.</p>

CRITERION VI - GOVERNANCE, LEADERSHIP AND MANAGEMENT	
6.1 - Institutional Vision and Leadership	
6.1.1 - Mention two practices of decentralization and participative management during the last year (maximum 500 words)	
<p>Be it a nation or an institution, if it is not democratic in its decision making it is not destined to go far away in race of excellence. Being democratic means including all stakeholders in a decision-making process. It requires participation of all. We, at Govt. Ranbir College, Sangrur are committed to follow the policy of participative management both in letter and spirit. There are various administrative committees in college in which not only teaching staff but parents and students are also made to involve. They are consulted when college has to make some important decision. Gone are the days when few on the helm of affairs could decide fate of multitudes, now our governments have made it mandatory to involve one and all in crucial decisions of every institution. For this purpose, college principal has constituted adequate number of committees so that decentralized structure may work more efficiently for the college. There have been numerous examples in college telling us how these committees are working tirelessly and immaculately in interests of the college. Prominent examples are PTA popularly known as Parents Teacher Association in which some of most important executive positions are assigned to parents of students and that too by process of open nomination by duly constituted PTA committee. Various resolutions are passed in their presence. They are encouraged to suggest freely whatever they feel so college authorities and parents may collectively work for betterment of institution. The second example is College Council. Almost all the decisions of huge significance are taken in presence of all senior teachers of college. The principal of college give due weightage to their opinions and decisions are taken accordingly. Hence, it goes without saying college has developed an adequate and sustainable inner mechanism to empower everyone in college so everyone may feel the sense of belongingness to institution.</p>	
6.1.2 - Does the institution have a Management Information System (MIS)?	
Yes	
6.2 - Strategy Development and Deployment

Examination and Evaluation	The Evaluation system being provided by Punjabi University, Patiala to which this college is affiliated, and is followed by the college. A

	transparent internal assessment is in place to assess the students. A meeting is being called by principal in the beginning of session in which along with registrar they share their vision about session to come and introduce the faculty members with changes in evaluation process if any. A schedule of examinations is prepared by registrar office and is being communicated to students in their tutorial groups and by notices on notice boards. Mid-semester exams are conducted by the college staff and constant performance of the students is assessed on the basis of MSTs, assignments and class attendance. During this session, fair means for the assessment of the students is practiced.
Admission of Students	Prospectus is being made available from library for prospective students, so that they can fill the form and submit as per the last dates of form submission in the college. Fair, transparent and merit based Admissions are followed by displaying the merit lists at various places in the college for information of students as per the norms laid down by Punjabi University, Patiala. In each admission committee there are members that guide the students and parents about the whole process. Timely information is displayed about admission process on notice boards placed at various places in college. Admission is done by specially formed admission committee. Strict observance is followed for the reserve category norms.
Teaching and Learning	The learning experiences of the students are enriched by adopting innovative and interactive teaching methods and audio visual aids by various departments. Students' performance is closely monitored through class tests, assignment, class participation and mid semester tests. To improve the quality of learning, students are encouraged to participate in the activities organized by various departmental societies and clubs. Subject teachers hold special discussions in their respective classes about the pattern of the question papers and the division of marks. Seminars are being conducted in which the students are given current topics and presentations are being taken. Every teacher is assigned teaching duties as per UGC/Punjab Govt. guidelines during each semester.
Curriculum Development	Board of studies, Punjabi university Patiala have been given the responsibility of development of curriculum for various courses being run in the colleges. Two teachers of the college are members of university faculty of life sciences and faculty of education and information science bodies and they convey to the university feedback regarding curriculum and the changes solicited, if any, by the students. These members of the faculty help in the restructuring and development of the syllabus every three years.
Research and Development	Conducive environment is provided to the students and faculty for research activities. Interactive sessions and seminars are held in the tutorial meets. Seminars are given to the post graduate students and they are required to present seminars on the same. Two regular college faculty holding Ph.D. degree act as supervisor as per UGC guidelines. Faculty is encouraged to participate in various conferences and seminars for the development of faculty. Research papers were published by the total faculty in different national and international journals during 2017-2018

With the advancement of technology, rise in pollution, the issue of disposing waste has become a matter of concern. The management of waste material is very important to ensure the protection of both environmental and human health. There is an ardent need to take appropriate initiatives for its management. Here, we will discuss various measures taken by the college authority for waste management. Solid Waste Management Bins are established in every part of the college campus to dispose waste. All the used and waste papers are sold out to vendors for recycling and single side used papers are reused for writing printing in all departments. Institute has applied NO PLASTIC POLICY in the campus to minimize the ever-increasing plastic waste. Beside this, several compost pits are made in the campus to decompose waste such as kitchen waste, plant litter, waste from the college canteen, etc. to form manure and used for gardening. The best out of waste program is being conducted time to time to best utilize some waste things like plastic bottles, cans, etc. Liquid Waste Management Waste water from the Home Science lab, kitchen canteen is being used for watering the plants or released into parks or lawns. E-waste Management E-waste including all items of electrical electronic equipments its parts that have been discarded as waste is

being auctioned by all the departments for recycling, otherwise most of the equipments are repaired for reuse. Waste Recycling Systems Several compost pits are established for proper decomposition of waste material. Biogas plant water harvesting system can be used for management of waste and utilization of rain water Hazardous Chemicals Radioactive Waste Management Generally, only required quantity of chemicals or salts is provided to students to perform experiments in laboratories like chemistry labs. 7.2 - Best Practices

7.2.1 - Describe at least two institutional best practices

• Subject :-Slogans Writing On Walls Aims :- 1 To provide information to the students about slogans related to moral values and social values. 2 To emerge moral ethics among students. Context :- 1 To develop qualities of moral ethics among students. 2 To inform students about the problems faced by society through slogans and aware them so that they can solve the problems. Practice :- NSS units of the college provide practices of slogan writing to the students. Volunteers of the units write famous slogans at different places of college as 'BETI BACHAO BETI PADHAO', 'SWATCH BHARAT, SWASTH BHARAT', 'AIDS JAGRUKTA', 'SAVE WATER', 'JAL HAI TO KAL HAI', 'JAL HI JIWAN HAI'. The aim of the practice is to aware students about the moral values. Evidence of Success: - The evidence of success could be seen in the fact that we see enthusiasm of students at that time. It helps them to live a disciplined life when they apply the slogans in their life. Problem:- Encountered and Resources Required:- The students do not face any problem during this practice. Suggestion:- These kind of activities should be arranged time to time so that the students should come to know about the problems of the society. The institution should organize competition of slogan writing.
